| 2017-2020 |  
Diploma in Electrical and Electronics  
Percentage – 73

### Certification

#### GUVI

MERN Stack Development

#### Inmakes

Java Full stack Developer Intern

#### Scaler Academy

React Master Class

### EXPERIENCE

#### Full Stack Developer – Intern, Inmakes

May 2023 – Aug 2023

- Developed expertise in website development as Java Full Stack Developer Intern
- Successfully completed multiple projects showcasing proficiency in Java Spring Framework, and various web development technologies
- Collaborated effectively with cross-functional teams to contribute to successful development of high quality websites

#### Full Stack Developer (Project-Based)

ZenClass program, GUVI

Nov 2023 – Jan 2024

- Developed multiple full-stack web applications using the MERN stack, demonstrating proficiency in MongoDB, Express, React, and Node.js.
- Collaborated with peers to design and implement functional user interfaces while ensuring backend efficiency and database integrity.
- Practiced agile methodologies and version control using Git and GitHub, contributing to a consistent workflow and team synergy.
- Engaged in continuous learning and skill enhancement, successfully completing all program milestones and projects

### PROJECTS

#### Online Film Booking Platform

- Developed an online film booking platform using HTML, CSS, JavaScript, React, MongoDB, Node.js, Express.js, bcrypt, and JWT.
- Implemented key features including movie display, seat availability, and booking confirmation.

#### Daily Dress Color Suggestion for Women

- Developed a responsive web application using Vite.js, Node.js, Express.js and MongoDB
- Implemented user authentication and authorization with bcrypt for secure password hashing and JWT (JSON Web Tokens) for session management.

#### Todo list Application

- Developed a responsive and user-friendly todo list application using Angular, HTML, CSS, and JavaScript.
- Implemented features for task management and status tracking.
